

BRITISH

Now Making Overtures to the United States Government.

The Eastern Affair Is Serious

And England Is Endeavoring to Line Up Several of the Great Powers For the Purpose of Menacing the Russians.

London, March 9.—A crisis has arisen in far eastern affairs which in the opinion of the British government is graver almost than the troubles which originally turned the eyes of the world toward the orient. In this crisis secret negotiations are going on between the United States and Great Britain with a view of thwarting what both governments appear to consider a determined attempt on the part of Russia to plant herself permanently in one of the richest tracts of the Chinese empire.

The conference held Wednesday between United States Ambassador Choate and Lord Lansdowne, the foreign secretary, had nothing to do with the Nicaragua canal affair. To quote from a British official, "The Nicaragua controversy is a minor matter compared with the political situation." What Mr. Choate did was to receive from Lord Lansdowne an important message declaring that Great Britain was not satisfied with Russia's declaration regarding Manchuria, as delivered to Sir Charles Stewart Scott, British ambassador at St. Petersburg, by Count Lamsdorff, and asking the United States if they were prepared to take joint action of such a decisive nature that Russia would have no alternative but to recede from her position.

Almost simultaneously, it is said,

the United States government instructed various ambassadors to take similar steps. The answer of Secretary Hay has apparently not yet been received in London, although the fact that almost concurrent instructions were issued from Washington is taken here to be sufficient guarantee that Russia's action in Manchuria will not be tolerated by the United States.

Japan is relied upon to take a line in harmony with the United States and Great Britain. Germany, in spite of the Anglo-German compact, is regarded as rather doubtful, owing to Emperor William's friendship for the czar. France, of course, will side with her ally.

The significance of the present phase can only be appreciated by those cognizant of the lethargic attitude of the British government hitherto regarding Russian action in China. Within the last few days all this has changed. What a week or two ago was pronounced only in line with Russia's usual policy is now termed "a grave and seditious state of affairs." Lord Lansdowne is using every effort to bring the powers into line, in order to present to Russia such a menacing front that, without any ambiguity regarding temporary or other occupation, she may give up all designs upon Manchuria.

TWO COMPANIES

Of Soldiers Called Out to Quell a Riot Their Comrades Started.

Chicago, March 9.—Highwood, a village on the outskirts of Ft. Sheridan, was under a reign of terror last night. Col. Bowman, commander at Fort Sheridan, sent out two companies of infantry to protect the town against some of its own, drunken, men. Corporal O'Brien started trouble in a restaurant by picking a fight. He smashed windows, shot out the lights, and wrecked several business places. He was joined by a dozen or more men who smashed stores and saloons for two hours before they were subdued. It was pay day.

THE STAGE.

Tonight—The Frank Daniels Opera Co. in "The Amerer."
Thursday night—"Eight Bells."
Saturday matinee and night—"A Ride for Life."

"The Dairy Farm" drew a fine audience Monday night and that it was a highly pleased one was evident from the enthusiastic applause and hearty laughter it bestowed. Miss Merton has come mighty near writing a great play in "The Dairy Farm." It is surely one that will draw big audiences for many years to come, providing it is presented with as capable a cast and the same careful attention to detail that characterizes the present production.

The costumes worn in "The Dairy Farm" were the subject of much comment Monday night. The present writer is not up in that mysterious product, woman's dress, and the hoop-skirts did act queer at times, yet Miss Hopkins was certainly most fetching in the black dress worn by "Lucy" in the last act. And did not the high collared purple and lavender (was at lavender?) coats worn by the men look better than the sober blacks and greys affected by the present generation?

How many in the audience were reminded of their childhood days by the old song, "Rosin the Bean." That's one of the nice things about "The Dairy Farm." You get a brief backwood turn of time's wheel and many, sleeping memories that you thought buried are awakened. Who is not the better for this short respite from the rush and whirl of the twentieth

TURKISH

Troops Sent to Macedonian Frontier.

Great Apprehension Is Felt In Bulgaria.

The Bulgarian Government Notified That It Will Be Held Responsible For Border Troubles.

Sofia, Bulgaria, March 9.—Increasing apprehension is felt in Bulgaria at the concentration of Turkish troops on the Macedonian frontier. It is known that large quantities of arms and ammunition have been secretly imported into the Villayets of Kossovo, Uskuv and Monastir. Two Russian officers who have toured recently in northern Macedonia incognito left for St. Petersburg. The Bulgarian government has received sharp reminders from three of the great powers that it will be held responsible for the preservation of order in the border districts. Great anxiety exists in Albania, which is in a state of unusual bania, which is in a state of ferment.

PERITONITIS

Was the Cause of the Sudden Death

Of Mrs. I. W. Satterthwaite Last Monday.

She Had Been Ill for Some Days, But no Serious Result of Her Illness Was Anticipated.

The many friends in this city of the late Mrs. Satterthwaite, whose sudden death occurred last Monday, have been anxious to learn the cause of her demise, as letters received from members of the family a short time before had dated their recipients to believe that she was in good health.

The following extract from a letter received this morning by Mrs. F. W. Holmes, from J. H. Woods explains the cause of this noble woman's death. It says:

Los Angeles, Cal., March 5, 1901.
"Friend F. W.:—I presume you have heard the bad news, through a telegram sent to Will McHenry.

Cora's mother died yesterday morning at 3:30 at Houlton Catalina Island. She had not been feeling well for some time. First of last week she was feeling very bad but seemed to recover, and when I left the island for Baskersfield to look after a business matter, she was quite bright, and apparently feeling very well but shortly after my arrival there I received a letter from Cora, saying that her mother had had a very bad night and suffered intensely from what they supposed was an accumulation of gas which has been the source of so much trouble to her but she got no permanent relief and for three days and nights Cora and her father got very little, if any, sleep, as it was impossible to secure a nurse at the island. Finally the end came yesterday morning, and the trouble proved to be peritonitis.

I had gotten here on my return from the island, so we knew nothing of it until we received a telegram from Cora, from San Pedro, where the steamer lands. There is no telegraph line to the island. They have decided to not take the body home until some time during the last of April."

KITCHENER

Meets Botha and Other Leaders at Middleburg.

The Negotiations for a Termination Are Renewed and the Outlook Seems Favorable.

London, March 9.—A dispatch from Pretoria, evidently held up by the censor, has just reached here. It says General Kitchenier met General Botha and other Boer leaders at Middleburg on Feb. 27, when the question of the possibility of the termination of hostilities was discussed. Another dispatch from Pretoria, dated March 6, says the meeting between General Kitchenier and General Botha has awakened deep interest, and there are favorable expectations as to the prob-

FEAR

Pneumonia Will Yet Develop.

Much Anxiety

Felt by Friends of the Ex-President.

General Harrison Suffering a Very Serious Attack of Illness.

Senator Christopher Magee, the Famous Pennsylvania Politician, Passes Away at Harrisburg.

Indianapolis, March 9.—Ex-President Benjamin Harrison is a very sick man, and his closest friends are alarmed. His condition is more serious than is generally believed. However, Dr. Henry Jameson, the family physician, who has sole charge of the case, said that there was no immediate danger, and in fact he was not at all alarmed, he said, as to the outcome. Asked if the age of General Harrison would not weigh very much against his recovery, the doctor said such would naturally be the case to a certain extent.

General Harrison is troubled with a complication of la grippe and intercostal neuralgia, and there is some fear that it will develop into pneumonia. The large muscles of the chest are much affected and the patient is confined to his bed.

Senator Magee Dead.

Harrisburg, March 9.—State Senator Christopher L. Magee of Pittsburg is dead. He had been ill of a cancerous affection for a long time. His death was unexpected, as it was generally believed by his friends that he was improved in health. His condition suddenly took a turn for the worse and the members of his family were hurriedly summoned to Harrisburg. His end was peaceful and calm. His remains were taken to Pittsburg.

Mr. Magee was born in Pittsburg in 1848. In 1869 he was made cashier in the city treasury and in 1871 was elected city treasurer, and was re-elected in 1874. He was elected state senator in 1892 and was twice re-elected. He was a director in numerous Pittsburg banks, trust companies and insurance companies, and at the time of his death was the principal owner of the Pittsburg Times.

WHITELAW

Replies to the Query of L. K. Fuller.

Claims Paris Commission Granted a Hearing

To Filipino Emissaries and That Agoncillo Was Told to Make His Application for a Hearing in Writing.

New York, March 9.—In reply to a query propounded by L. K. Fuller of Boston, secretary of the Philippine Information society, Hon. Whitelaw Reid, one of the Paris treaty commissioners, states that Filipino emissaries were granted a hearing by the commission sitting in Paris. In the case of Agoncillo, Mr. Reid says, he repeatedly requested the late Senator Davis for a hearing, and the commission each time authorized Mr. Davis to request Agoncillo to present the application in writing and to assure him that it would have early attention. Mr. Reid states no written application ever came. Sixto Lopez, the Filipino envoy now in this country, claims Senator Davis made no suggestion that a written request be made the commission.

CASHED STOLEN BONDS.

New York, March 9.—William Schriber, the young bank clerk who plundered the Elizabethport bank last August of \$109,000, has been traced to Los Angeles, Cal., where he cashed three United States 4 per cent bonds which were part of his plunder. The bonds were of the issue of 1935 and were for \$1,000 each. They had been placed in the bank for safe keeping by the administrators of the estate of the late Peter F. Wyckoff of Elizabeth. The bank is now being sued for the value of these bonds. Except that he cashed the bonds in Los Angeles, nothing further has been learned of the

TOBACCO

Will be Relieved of a Heavy Duty.

The Charge Becomes Effective April First.

Order Issued by President McKinley Upon the Recommendation of the Cuban Economic Commission.

Washington, March 9.—The president issued an executive order abolishing the Cuban export duty on tobacco from April 1 next. This action was taken on the earnest recommendation of the Cuban economic commission, which recently visited Washington, indorsed by General Wood. A previous order had been issued fixing an export duty of 50 per cent on Cuban tobacco from April 1. The action of the president removes the export duty entirely. General Wood's approval of the abolition of this export duty is practically an expression of his belief that the Cuban revenues from other sources are sufficient for the needs of the insular government.

MONTANA

Legislature Breaks the Deadlock

And Elects a Worthy Democrat to the Senate.

Hon. Paris Gibson, Father of Great Falls, Wins the Coveted Prize After a Long Wearisome Struggle.

Helena, Mont., March 9.—Hon. Paris Gibson (Dem.) of Great Falls, was elected United States senator. Almost the entire term the legislature voted daily for senator, but with no result. Mr. Gibson was born in New Hampshire in 1830. He located in Minnesota in 1858, engaging in the milling business. He came to Montana in 1879, engaged in the stock business and founded the town of Great Falls, now containing 12,000 people and of which he is called the father. He is a strong Democrat.

BOTTOM

Has Fallen Clear Out of Sandy Fork,

And a Few Little 25-Barrel Wells are all That is Left to Tell the Tale.

Sand Fork, West Virginia, has twenty-six producing wells and the average yield per well is twenty-five barrels. It is a little doubtful that Sand Fork will ever pay for itself. This is the mighty bear that proposes at one time, less than six months ago, to sit down on everything that had value in the oil country.

In the Public Eye.
The latest pool to attract attention is that north of Salem in Harrison county. The South Penn and Garland have been getting some large wells there but they do not stay. Garland's hangs out pretty well, starting at 1,000 barrels two weeks ago and still putting out about 300 barrels. The big well of the South Penn Oil company that started at 3,000 barrels last week is now doing less than Garland's. So it will be seen that when a gusher is obtained in that quarter it is expected to do its worst on the first day.

Revolting Crimes Committed.

An Eleven Year Old Girl Assaulted By a Negro at Denver, and a Seventeen Year Old Girl at Bluffton, Ind. Another Victim.

Denver, March 9.—The 11-year-old daughter of Edward D. Hegg, special officer of the Colorado and Southern railway, was criminally assaulted by an unknown negro within a stone's throw of her own home. Bloodhounds have been brought into requisition and a lynching is probable if the negro is caught. The little girl had been to a store in the neighborhood of her home and had just reached her own gate when she was seized, carried to a nearby vacant lot and assaulted. She could only describe her assailant as a roughly dressed negro without beard. Her hands and face were smeared with coal dust, grease or soot from the fellow's hands.

Bluffton, Ind., March 9.—Miss Kitty De Long, 17, daughter of Joseph De Long, a prominent farmer living three miles north of this place, was the victim of a criminal assault and she now lies at her father's home in a critical condition. Miss De Long had been to this place on an errand and was returning to her home when she was attacked by an unknown man. She was terribly bruised and beaten and almost unconscious, but two hours later managed to stagger into her father's house, when she fell fainting to the floor. The city of Bluffton is wild with excitement and hundreds of citizens are scouring the country. Sheriff Pressinger also organized a posse for the pursuit of the fiend.

Annual Banquet of Philomathen.
Last evening was one of rare pleasure for the favored friends of the members of the Philomathen club, who entertained their husbands and particular friends at a six o'clock dinner, at the pleasant home of Mr. and Mrs. J. L. Andrews, of west Market street. Fully seventy-five being seated at tables spread in the dining room and library. It is needless to say, that the dinner was appreciated, for the ability of the club is well known, and the dinner, one of excellence throughout, as a forerunner of the happy evening. The president, Mrs. U. M. Shappell, made an address of welcome just before the dinner was served. A literary salad, was one of the amusing features of the feast, putting one of their motto to devise correct answers. After the dining, a social half hour followed, then all were seated for a choice program, consisting of the following numbers:

Miss Blanche Andrews and Orin Andrews.
Vocal Solo—With Violin Obligato....

Surprised
But this time it was the crowd that was taken in. Last evening a small party was invited to a six o'clock dinner at the home of Mr. and Mrs. Jas. Sullivan, 421 north McDonald street. After a few hours spent in pleasant conversation, dinner was announced and when all were seated, Mr. Sullivan standing at the head of the table, called his right hand upon her shoulder, said, "Friends, 30 years ago tonight, this lady and I put on our best clothes, washed our faces clean, looked our nicest and were married." This proceeding was also a surprise to the hostess. The surprise to those present was so great, that a hand clapping was heartily given. Nothing in the proceeding, however, destroyed our appetite for all enjoyed the dinner with a relish, which could not be surpassed. At a late hour, on taking leave of this worthy couple, all wished them many anniversary returns in the future.

March, April and May!

Paine's Celery Compound the Best Spring Medicine in All the World.

Purifies the Blood as Nothing Else Can Do, Makes Strong Nerves, Cures Disease!

There is but one spring medicine that never fails.
Paine's celery compound is a physician's remedy, and all schools of physicians prescribe it.
It is guaranteed by thousands of men and women whom it has benefited. It has saved the health and lives of hundreds of sufferers in every community.
It is the only specific known for diseases arising from a debilitated nervous system and impure blood. Again it cures when every other means fails. It is as far in advance of the ordinary weak meaning but useless stimulants, tonics, and tonics, as a finely adjusted chronometer is superior to the dummy clock on a jeweler's sign post. One is the finished product of brains and scientific skill, while the other is a bungling imitation.
This is why the demand for Paine's celery compound as a spring medicine is so far exceeding to-day the demands for all other remedies put together.
Paine's celery compound, taken during the early spring days, has even more than its usual remarkable efficacy in making people well. It makes short work of all diseases of debility and nervous exhaustion. It rapidly drives out neuralgia, sleeplessness, dyspepsia, and rheumatism from the system. It removes that lassitude, or "tired feeling," which betokens weakened nerves and poor blood.
Overworked and tired women are but one class of persons who are in urgent need of the wonderful remedy to make and keep them well. Business men who are not sleeping soundly, shop girls made pale and sickly by long hours of indoor work, and the countless sufferers from dyspepsia, kidney and liver trouble, need the invigorating effect of Paine's celery compound now that spring, with all its dangers, is at hand. Its pre-eminence as a health-maker comes from its extraordinary powers of supplying appropriate nutriment to the blood, nerves and brain.
There isn't a family so rich or so poor as to afford to be without a bottle of Paine's celery compound in these early spring days, when the human system needs every assistance to carry it through the depressing effects of the season when nature makes it easiest to replenish the blood with new, healthful material, and feed the nervous system with strength for future work.
What Paine's celery compound has done for thousands of others it will do for the reader, and once this great medicine is given a trial, another person will be added to the multitude who praise its wonderful virtues.

OPERATION

Only Partially Relieved the Suffering of Mrs. H. Copeland.

Mrs. H. Copeland, of Waynesfield, who has been at the city hospital for the past three weeks, has not improved under treatment, as her relatives and friends had hoped for, and she was removed to her home today in Jones & Williams' ambulance. Mrs. Copeland had been suffering with what was thought to be a tumor on the brain. The pressure was relieved by a delicate operation which was in itself entirely successful, but the seat of the trouble could not be reached and just now her condition is believed to be serious.

WHY SO MANY FAIL.

The Reason So Many Catarrh Remedies are Unsuccessful.

There are few troubles, for which there are so many remedies and so called "cures" as for catarrh and it may be added there are few diseases so difficult to really and permanently cure.

Inhalers, sprayers, powders and douches are all applied locally and give temporary relief often for only a few hours, and it is doubtful if anything like a real cure of catarrh was ever accomplished by the use of local applications.

Catarrh is a constitutional disease, it is in the blood like rheumatism and to cure it requires an internal medicine to act upon the blood, to drive out the catarrhal poison from the system entirely and anyone can readily see that a saline or powder or inhaler which simply clears off the mucous membrane of the nose and throat can have no effect on the real cause of catarrhal disease.

The remarkable success of the new catarrh remedy, Stuart's Catarrh Tablets is because it drives out of the system through the natural channels, the catarrhal poison, the germs of grip, bronchitis and consumption and causes the hawking, spitting and gagging because the excessive secretion is no longer supplied when the blood is made healthy from the regular use of Stuart's Catarrh Tablets.

The remedy is in the form of large 20 grain lozenges, pleasant and palatable composed only of wholesome antiseptic and so safe to use that little children use them with perfect safety and benefit if the little one is suffering from colds, croup or cough from any cause.

Stuart's Catarrh Tablets have been on the market scarcely one year, yet they have met with such popularity and success that druggists everywhere in the United States and Canada now have them in stock and report a constantly increasing demand for them.

Monuments Erected in Gethsemani Cemetery.

Work Done by Chaption & Ayers Adds Beauty to the City of the Dead. Firm to Locate Here.

A. J. Ayers, of the Detroit granite firm, Chaption & Ayers, has been a guest at the Norval for a few days, being in the city to superintend the erection of two magnificent monuments that have just been placed in Gethsemani cemetery. The monuments were constructed by Chaption & Ayers, one for J. H. Moore at a cost of \$2,500 and one for John Finley at a cost of \$1,500, and they add greatly to the beauty and attractiveness of the new cemetery.

Mr. Ayers is well known in Lima. He has visited the city at intervals for quite a number of years and twenty thousand dollars worth of the finest monuments in Woodlawn cemetery were placed there by his firm, among them being the Melly monument, which cost \$1,500, the Agter, \$2,000, the Coe and Schultheis monuments, \$1,500 each, the Doepkin, \$1,400, Stannets, \$1,200 and many others ranging in cost from \$400 up to \$1,000. The granite for the Collins vault and the Collins monument were also furnished by the same firm.

Mr. Ayers states that he has found Lima to be one of the best towns in Ohio and that his firm will soon locate an office and granite works here.

Pioneer Has Fulfilled Her Earthly Mission.

The Call Comes to Mrs. Sarah McCoy Whose Death Occurred at 5 O'clock This Morning.

Word was received this morning of the death of Mrs. Sarah McCoy, whose home is one mile west of the city. The deceased was an early resident of the county and her name might well appear in the list of the pioneers who settled in the northwestern Ohio wilderness when the century was yet young. She had lived on the farm where she died for 52 years.

After a prolonged illness, exaggerated by ailments attending upon old age, Mrs. McCoy contracted pneumonia and it tended to hasten the end. She died at 5 o'clock this morning at the age of 77, and leaves to mourn a family consisting of four sons. Three of the boys live at West Minister, while the fourth, Nicholas McCoy, is a resident of this city.

Jones & William, the local undertakers, were notified to take charge of the remains. Funeral services will be held at Salem church at 1:30 o'clock tomorrow afternoon.

Peruna For Colds, Coughs and Catarrh.

Peruna Building, Montgomery, Ala.

John C. Leftwich, Redeemer of the Moneys, whose office is in the magnificent building above shown, in a letter written from Montgomery, Ala., takes pleasure in recommending Peruna as an excellent tonic and is recommended to me by those who have used it as a good catarrh cure."

Hon. Robert Barber, Register United States Land Office, also writes from Montgomery, Ala.: "For some time I have been a sufferer from catarrh in its violent stage, so much so that I became depressed and feared my health was generally in a decline. But hereof Peruna as a good remedy I gave a fair trial and soon began to improve. Its effects were distinctly beneficial, removing the annoying symptoms and was particularly good as a tonic."

John J. H. Burke, Collector of Port of Mobile, Ala., writes: "Peruna I can recommend as a fine medicine. It has been in my family and as a tonic it is excellent. I take pleasure in testifying to its merits."

P. D. Barker, Postmaster of Mobile, Ala., in a recent letter, says: "Allow me to send you my testimonial as to the good qualities of Peruna. I have used it for the past three months and find it an excellent tonic."

PERSISTENT

Its Effort to Handicap the Committee

and Thereby Defeat Decrease in Valuation.

The Lima Gazette Makes Another Vicious Attack Upon Mr. Westergaard, the Member From This District.

It is the intention of the Lima Gazette to defeat, if possible, the work of the citizens committee appointed to sit in Columbus and attempt to obtain reduction in the valuation of Lima estate.

The result of the Gazette's policy, if successful, will be to cause the taxpayers of the city to pay out an additional ten per cent. upon their taxes. This is an added burden upon every person in Lima who is interested in a foot of real estate within the corporate limits of this city.

The course adopted by the Gazette to defeat the wish of the people in the matter of securing a remission of the taxes imposed by the State Board, is to devote certain space in each edition of the paper to an article maligning the paper to an article maligning the Westergaard, the member of the State Board from this district. Their intention is that by this course, Mr. Westergaard may be increased and therefore not be enthusiastic in attempting to secure the reduction that the committee will request. In this morning's edition of that paper was another vicious attack upon Mr. Westergaard, which attributed to a "Democrat," but which was prepared by the editor of the Gazette himself. It is one of a series of articles having an ulterior and sinister object, as will be developed.

BIG

Slice Said to Have Been Cut Off

Gross Amount

Due to the State by the Manhattan.

A Compromise of the Matter Advised by Attorney General Sheets.

Frank A. Hoffman of this City is Made a Committee to Confer With Manhattan People and Report Tuesday.

A telegram from Columbus, printed in yesterday's Enquirer, says: "It is stated on what seems to be good authority that the State Board of Public Works has agreed privately with the Manhattan Oil Company to settle the judgment of \$100,000 held against the company by the state for the illegal taking of oil for a sum approximating \$30,000. The state has a judgment against the company for this amount and the company's lawyers have apparently advised it that it is useless to carry on the fight in the courts, for no effort has been made to carry the case up. Acting on the advice of Attorney General Sheets, however, the State Board of Public Works is considering a proposition to 'compromise' this suit for a less sum."

No reasons have as yet been given to the public why the board should refuse to accept the \$100,000 granted the state by the courts, but the Attorney General has advised the board that it will be legal for it to abandon all claims of the state against the company for a less sum than that fixed by the courts. Frank Hoffman, the member of the board from Lima, in which city the Manhattan Oil Company is located, has been given power to arrange the details with the attorney of the company, and it is stated that he will agree on behalf of the state to demand \$30,000. The company claims that it has been put to an expense of \$50,000 in defending this case and in taking out the oil, which for some reason the state is asked to repay."

Mr. Hoffman was seen by the TIMES-DEMOCRAT this afternoon and said that the above telegram which had been sent out from Columbus was full of error. He further said that no judgment had been rendered against the Manhattan, as stated in the dispatch, and that the company was not a trespasser in the sense that the telegram indicated. Judge Bigger decided that the Manhattan Oil company, under their lease on the State lands, had a right to drill on them for gas. The Manhattan company acting under a decision delivered in a Mercer county case that the same lease would permit the production of oil, had also taken oil from the State land, and it was upon that ground that the States action was based. After Judge Bigger's decision, that the Manhattan had a color of right for their action, had been rendered, Attorney General Sheets advised a settlement of the case, giving proper considerations to the Manhattan's rights under Judge Bigger's interpretation of the lease. Mr. I. S. Motter, representing the Manhattan, was at Columbus last week and stated the case for his clients. No basis of settlement has been decided upon. Mr. Hoffman of Lima, has been appointed a committee from the Board of Public Works to procure a statement from the Manhattan, which they willingly agreed to give, and will report it at the next meeting of the Board on Tuesday.

WORRY

Caused Arrest of Supposed Insane Patient.

William Anson Discharged After an Inquest

And the County Trustees Furnished the Unfortunate Man a Ticket to Cincinnati, O.

Wm. Anson, who was found at the Brunswick hotel last Monday in a state bordering upon insanity, and who was taken in charge by chief of police Harley, was discharged this morning after an inquest conducted by probate judge Miller.

Anson's condition is due no doubt to a recent misfortune which has resulted in an attack of melancholy. Several months ago he lost an arm while working in a factory at Toledo, and having a wife and five children depending upon him for support, he gave way to his misfortune and allowed the worry to temporarily unbalance him. The trustees provided him with a ticket and he was sent home over the C. H. & D.

Don't Know It All. When an attorney like Judge Harmon or Judge Doyle comes to Lima in the interest of some railway or other corporation, the uninitiated are impressed with what is evidently a superior knowledge of legal lore, but a remark made by one of Lima's best known attorneys in reference to lawyers of the Judge Doyle kind is doubtless true. If he were to enter into a contest with the least informed, or, in other words the youngest member of the local bar, over a forcible detention suit, the learned Judge would find himself handicapped. The country attorney is bound to have the knowledge at his fingers ends which prompts him in the serving of a miscellaneous assortment of clients, while the city lawyers, who have made himself felt, confine himself strictly to a line with which he has grown familiar after years of practice. Put him in Justice's court and while his reputation would possibly frighten his opponent, the latter would soon have the Judge guessing.

A PAIR OF FAILURES.

Two cases of desertion are brought to public knowledge through the filing of divorce suits yesterday afternoon. In one instance the wife is made defendant in a petition filed by August P. Charlie. They were married in 1889, but the wife has since left her home and for the period of three years, as provided by law, has been wilfully absent.

The second case being Mrs. Ella E. Martin into court as an applicant for a divorce from Wm. Martin. So recently was the marriage, that the ground of wilful absence for more than three years, has just about been established. The wedding, so soon to lead to a separation, occurred at Wapakoneta in 1897. Mrs. Martin in addition to her prayer for a divorce asks for the custody of her four-year-old child.

ALIMONY GRANTED.

Spring Work and Spring Medicine

The Spring Housecleaning Uses up Women's Strength. Dr. Greene's NERVURA RESTORES IT.

MRS. JESSIE McVEY, Irvington, Ind., writes: "I overtaxed my strength in trying to do too much work. I had a spell of nervous prostration, and was so weak all the time I could scarcely get around."

"I got medicine from several doctors, but in a little while I would feel as bad, if not worse than ever. I began to be discouraged, when I saw an advertisement of how Dr. Greene's Nervura blood and nerve remedy helped others who were worse than I was, and I concluded to give it a trial. Before taking half a bottle I began to feel better. I did not feel so tired and nervous. My head felt better and my appetite improved. I have taken three bottles and keep on improving. I think this wonderful medicine cannot be praised highly enough, for it makes the weak strong, and the old feel young again."

HOUSECLEANING time is the busy season of the housewife. All the other endless work of the home must be done just the same, and the addition of the spring cleaning is about the last straw.

When the task is finally completed, when the carpets are all down again and every room is as "clean as a whistle," then the nervous excitement abates and temporary collapse frequently follows.

Don't attempt to do the Heavy Spring Work on the remnants of strength you have left after performing your usual duties. DR. GREENE'S NERVURA Blood and Nerve Remedy Is rich in sustaining power and it will give you the STRENGTH you need so much.

There is no reason for any person remaining uninformed about Dr. Greene's Nervura's great service to mankind, for every one who has used it will gladly meet the inquirer half-way. Do not, therefore, drag out a miserable existence in ill-health and suffering without putting to the test the well-substantiated claims for Dr. Greene's marvelous medicine.

MRS. ADA McINTOSH, Lisbon Falls, Me., says: "I take pleasure in extending my thanks for that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. I had been suffering with nervousness and was unable to do any work, my nerves were so shattered. My nervousness was caused by an operation I was obliged to have about two years ago (amputation of the cervix), which left my nervous system in a terrible condition. I was in bed ten weeks with nervous prostration and employed three different doctors, but they could give me little relief and I gradually grew worse. I was on the verge of insanity when I heard of Dr. Greene's Nervura and I gave it a trial, and before I had taken the first bottle I felt better, and have now taken two bottles and feel like a new person. I was at first unable to do my work, but have improved so that I can now do the work for four in a family. I think Nervura is the most wonderful brain and nerve medicine in the world, and have advised all my friends who feel sick with nervousness to try it by all means. In my belief it is a sure cure for nervousness. I can't say enough for this wonderful remedy for all nervous complaints."

The advice of the great specialist, DR. GREENE, is at the free disposal of all who write or call upon him at his office, 35 W. 14th St., New York City. If you are puzzled about your health, Dr. Greene will advise you without charge.

"COON" SONGS. Lyrics of Foremost Colored Literary Man of Today.

There was born in Dayton, O., in 1872, a colored boy, destined before he reached 30 years of age to have made for himself a world wide reputation. That boy was Paul Laurence Dunbar, the polished man of letters, the brilliant poet, the fascinating dialect song writer and the foremost colored literary man of the age. All in the space of eight short years Mr. Dunbar climbed the ladder of fame from the deepest obscurity to his present height. He was the child of slave parents; was educated in the public schools of Dayton, receiving as good an education as most boys in his circumstances would have received. For some months after he finished his schooling he worked as an elevator boy. But during this period his literary bent was gathering strength of purpose, and being perfected. In his hours, more likely minutes of rest, in the elevator he was continually scribbling verses on scraps of paper. These scraps he gave to his mother with the injunction not to destroy them. This was the beginning; his present success every one knows, and the end—well, there is a brilliant future before him. It is in connection with "coon" songs, however, that Mr. Dunbar is best known. Probably there is no more popular writer of these delightful dialect songs than he. Certainly, his lyrics have been accorded an unwonted popularity and great sales. "Uncle Eph's Christmas," which is to be presented at Boston Music Hall this week, contains some of his most tuneful "coon" songs. In fact, the libretto of "Uncle Eph's Christmas" was written by Mr. Dunbar. Will Marion Cook, who has assisted Mr. Dunbar before by writing the music for his songs, is the composer of the music in "Uncle Eph's Christmas."

AS A BEAUTIFIER. Sensitive Raching Rides Laid Down by This Writer.

Of the virtues of the bath as a beautifier of the complexion, we are all more or less concerned; and, therefore, we all take our morning and evening bath most religiously, though it may be with variations. The vigorous, healthy woman will have it cold, with a quick all-over sponge; and brisk towel friction will follow, until she feels in a buoyant glow. For though the first effect of the cold water is to drive the blood inward, and to make the surface blood vessels contract, they soon dilate again, the color of the body becomes rosy, and there is a general feeling of warmth and comfort. But unless this reaction follows the use of the cold bath, the less strong woman, especially if she suffers from nerves, will have to take hers at a slightly higher temperature to make it invigorating, and to have her spine sponged immediately after it. Baths at too high a temperature, such as some indulgent natures love, cannot be too much deprecated, especially for women not in their first youth. A good rough-and-ready test is to immerse the elbow in the water before putting the body into it. If the elbow reports that it is "just right," the temperature is a safe one, and the bath will be soothing and restorative. Pure rain water is acknowledged to be the best for the skin; in the city this is, of course, not obtainable, but the ordinary water can be softened with a little borax, or a tablespoonful of ammonia will, with the natural oil of the healthy skin, form as much "soap" as is necessary for its cleansing. The fair Poppaea kept herself phenomenally beautiful by means of milk baths. A few years ago one of our leading society matrons, who is noted for her beauty, introduced hot milk baths among her friends, and they "caught on" (to use a slang phrase), and they are still taken by ever so many lovely women that I know of, and they all boast of very lovely complexions. These milk baths impart a remarkable whiteness and smoothness to the skin.—Boston Herald.

WHO ARE ALWAYS TIRED. "I do not feel very well, I am so tired all the time. I do not know what is the matter with me." You hear these words every day; as often as you meet your friends, just so often are these words repeated. More and more you speak the same words, "I do not feel very well, I am so tired all the time." Mrs. Ella Rice, of Chelaco, Wis., whose portrait we publish, writes that she suffered for two years with bearing-down pains, headache, backache, and had all kinds of miserable feelings, all of which was caused by falling and inflammation of the womb, and after doctoring with physicians and numerous medicines she was entirely cured by

America Long in the Lead. Forty-nine years have elapsed since the yacht America won the famous trophy known as the Queen's cup in a race around the Isle of Wight, against the Royal Yacht Squadron. The America, which was designed and built by George Steers of Grotonport, N. Y., and owned chiefly by Commodore J. C. Stevens of New York, crossed the ocean to sail for the cup. She was registered in custom house tonnage at 1770 tons. She was launched in 1857. The British yachtsmen made a great deal of fun over the ungraceful appearance of this "Yankee schooner." She carried no foremast and displayed no boom on her foremast, but she took the lead and held it in the race, which took place on Friday, Aug. 22, 1857, against six schooners and seven cutters of the Royal Yacht Squadron. She completed the run of eighty-one miles, despite the loss of her jib boom, eight minutes in advance of the Aurora. The cup came to this country at that time and has remained here ever since. In 1857 the America's owners presented the cup to the New York Yacht club for a perpetual international challenge cup—New York Weekly.

One of the Engineers. A bridge on a western railroad had been washed away and it was necessary to replace it with a temporary structure. The chief engineer and his staff were ordered in hot haste to the place, a drafting room was established in the nearby station and the scene became one of great activity. Two days later came the general manager to add more pressure to the already tense situation. Alighting from his private car he encountered the master bridge builder. The latter was a type evolved by the railroad situation of the last generation—heavy handed, hard of head, with some knowledge of books and a vast experience. "John," said the manager, and the words quivered with energy. "I want this job rushed. Every hour's delay costs the company money. Have you got the engineer's plans for the new bridge?" "Colonel," said the old man (the engineer student will learn early in his career that the general manager of a railroad never ranks lower than colonel)—"Colonel, I don't know whether the engineer has got the picture drawn yet or not, but the bridge is up, and the trains are passing over it."—Montreal Herald and Star.

"I had a running sore on my leg for seven years," writes Mrs. Jas. Forest of Chippewa Falls, Wis., "and spent hundreds of dollars in trying to get it healed. Two boxes of Banner Salve entirely cured it." No other salve so healing.

Wanted to Shake Hands. The week of prayer has had one funny incident so far at Union City, says the Philadelphia Times. Jess, a pug dog pet of T. R. Smoot, is responsible for it. Jess frequently goes to church with her mistress and among other accomplishments she has been taught the trick of sitting up and shaking hands. Jess and her mistress were in church, and the dog promptly curled up and went to sleep. She was awakened by the minister, who was just closing his sermon with a beautiful peroration, and besought those who would flee from the wrath to come up and give him their hand. No one responded, he repeated the invitation. "Come along," he pleaded. "Come up and give me your hand." Thinking that the invitation was intended for her, Jess jumped off the bench on which she was sitting, trotted down the aisle and, reaching the minister, stopped in front of him, raised herself on her haunches and extended her paw. The man of God took no notice of the dog but nearly every other person in the house did, and the solemn and sublime gave place to the laughable and ridiculous. Seeing that nobody was going to shake hands with her, Jess, very much disgusted, trotted back to her seat.

REPLEVIN ON WIFE. Gets Furniture to Fit Up a Bachelor's Den.

Wedding presents and personal property secured from his wife on a writ of replevin by Robert K. Coble of Evanston mark a variation from the ordinary method of settling domestic difficulties, says the Chicago News. Robert K. Coble married Miss Mabel Ferry four years ago and went to live at his wife's home, 1247 Hinman avenue, Evanston. Both were of prominent families. After spending several months in travel in the Orient they returned with trunks and boxes filled to overflowing with choice articles of eastern bric-a-brac and collections of stamps and coins. Peace reigned in the home until two months ago, when Coble, while absent on a business trip, received a letter from his wife informing him that a separation would be agreeable to her. By mutual consent it was arranged that the two should live apart, and the husband requested enough of the furniture to fit up a bachelor's "den." His wife refused to yield up any of the family possessions and Coble applied for a writ of replevin, which was served Saturday night. The property that was regained by Coble is valued at \$3,000 and consists of collections of stamps, coins and minerals, Japanese swords, cut glass, Bohemian vases of antique pattern, relics from India, Senu bowls and vases by Makuzo Woran, manufactured in the seventeenth century. A library is also included, containing 4,000 volumes, and valued at \$6,000. With the tastes of a bibliophile Coble had accumulated several first editions of considerable value, among which are a Temple edition of the "Pillgrim's Progress" and an early edition of Pepys' Diary, valued at \$500. The collection also contains Latin, Greek, and Sanscrit manuscripts of rare value.

IN A TRASH PILE. Old King George Coin Found in Knoxville, Tenn.

Walter Cheatham, an employee of the city staples, has had the good fortune to find a very old coin of the realm of Great Britain in a trash pile, says the Knoxville Journal and Tribune. The coin is of the same size as an American dollar and weighs just the same. Walter did not realize that the coin might have a big price offered for it, and while showing it to Stable Boss William Keller, asked that official what he would give for the coin. Mr. Keller does not know the value of old coins, and offered ten cents. Mr. Cheatham declined and Mr. Keller proffered twenty-five cents and the bargain was struck. Mr. Keller decided he would keep the coin as a rare novel keepsake, but now he would probably reuse an offer of \$500 for it, pending a thorough investigation of its value to numismatic collectors. On yesterday Mr. Cheatham returned to Mr. Keller and tried to buy back the coin for a quarter of a dollar. Mr. Keller refused, but jokingly said he would take \$5 for it. Cheatham was about to take him at his word, when Mr. Keller said he intended to keep the coin. Its owner was then informed that according to a coin collector's manual, King George's dollar was quoted as being worth \$1,500. The coin is much worn and the date is effaced, but King George's profile is stamped on the face of the coin, while on the back his majesty is pictured astride a horse in the act of slaying a dragon. "George III., G. B." are some of the letters easily deciphered around the margin of the coin. The edge is worn smooth.

BURGLARS

Went Through Several Houses in the City Last Night.

Four Watches Were Stolen

From Residences of Fred Pflum, T. A. Robinson and J. B. Jackman. Clothing Stolen from the Residence of F. C. McCoy.

The city seems to have suddenly become infested by the most daring gang of burglars that the police have had to cope with for some time. Last night, or rather early this morning, four residences in the northwestern and western portion of the city were burglarized, property of considerable value was stolen and attempts were made by the robbers to enter a number of other homes. In no instance were the burglars seen or detected by any of the victims of their raids and the police have no clue whatever to work upon unless it be the numerous tracks that were left in the mud about the residences visited and these were half washed out of existence by the heavy rain fall of the early morning.

TWO WATCHES STOLEN.

At the home of Fred Pflum, Sr., 614 north West street, between the hours of 3 and 4 o'clock this morning, the burglars gained an entrance by forcing a bedroom window open. They ransacked several rooms but were evidently in search of nothing but money and valuable jewelry. They secured one gold watch and chain and one silver watch belonging to Harry Pflum and his father, but declined to carry

away the new tailor-made clothes in which they found the watches. Two vests, one sack coat and one overcoat that were taken out through the window, were left on the porch at the home of Charles Pflum, whose property adjoins that occupied by his father.

AT T. A. ROBINSON'S.

The burglars also forced a window open at the home of T. A. Robinson, 614 west High street, and got away with Mr. Robinson's handsome gold watch without being detected. The watch is in a hunting case that has an Elk head engraved upon it, and is highly valued by the owner. So far as has been determined, nothing but the watch was taken from the Robinson home.

At the home of J. B. Jackman, 905 west Wayne street, the robbers were successful in securing another gold watch, which they removed from the pocket of Mr. Jackman's vest, and they also took a pair of gold rimmed glasses from the house. Mr. Jackman's trousers and vest were taken out of the house and were found this morning in an adjoining yard.

F. C. MCCOY ROBBED.

Another residence from which the

burglars made a successful haul was that of F. C. McCoy, on west Market street. Here the burglars had little trouble in gaining an entrance through a dining room window which they found unfastened. They took Mr. McCoy's overcoat a pair of tan colored gloves, a pocketbook containing a small amount of money, and a silk muffler. They also took away with them a china dish filled with candy and the dish was found this morning in the yard at the residence of R. C. Eastman, at Cole and Market streets. Mrs. Eastman recognized the dish as the property of Mrs. McCoy and returned it to her.

OTHER PLACES VISITED.

From all reports that have been received by the police it is evident that the robbers did all their work between the hours of 3 and 4 o'clock this morning. They attempted to enter the home of Ed. Botkins about 3 o'clock and succeeded in opening a window, but were frightened away by a little house dog that barked furiously. They also made an unsuccessful attempt to gain an entrance to the home of Dr. McIndoe on west Market street.

During the past two or three weeks, on account of the many burglaries reported from neighboring cities and towns, Chief Harley has been remaining on duty until 1 and 2 o'clock each morning and has instructed the officers to exercise every effort to prevent any raids being made in this city but the burglars have nevertheless operated so far with impunity.

The Mercer County People are Very Anxious to Have the Railway Built Into Celina and are Now at Work.

Mr. J. C. Carpenter of Lima, Superintendent of the Northwestern Ohio Traction Company, together with Wm. Numan, Secretary of the Lima Board of Trade, talked with a few of our people at the city hall on Friday night last relative to securing an electric railway for Celina. Judge S. A. Armstrong presided at the meeting at which a committee was appointed to confer with the citizens of St. Marys as to whether they would be willing to aid in securing the right of way to the county line between this and Auglaize counties. The gentlemen composing the committee are Mayor Landfair, W. E. TouVelle, F. V. Short, Philip Biersdorfer and John Schellhock. This committee went to St. Marys on Tuesday and will make their report at the meeting which will be held at the city hall tonight. This road is now being completed from Lima to St. Marys and its projects are very anxious to secure the right of way to continue the road on to Celina. Let every citizen in Celina and vicinity come to the meeting tonight ready to express your opinion as to whether or not Celina wants to secure an electric railway—Celina Standard.

RAWSON

Is Very Anxious to Secure the Interurban Line.

Mr. Carpenter, of the Western Ohio Railway Co., Visits the Hancock County Village.

The Findlay Republican yesterday contained the following: A sub-committee of the committee appointed by a mass meeting of Rawson citizens two or three weeks ago to ascertain the sentiment of the farmers regarding the proposed Lima Findlay electric line, which is calculated to run through that place, made a report Wednesday. The subcommittee had gone over the right of way of other roads that will intersect this country and learned from personal interviews with the farmers, that the sentiment was almost unanimously in favor of electric railways.

Those seen were positive in their statements of the benefits derived from the lines, and only one or two were found who expressed any regret at having granted the right of way through their farms. It is expected that this report of the committee will go a great way in influencing the decision of the farmers between this city and Rawson who have been petitioned by the Lima Findlay company for right of way concessions.

"Mr. Carpenter who is one of the promoters of this road will be in Rawson today and will be taken out for a personal interview with a number of the farmers along the proposed line. Some of them have already signed the necessary papers, and it is confidently asserted a few days more will see all plans completed, after which it will be only a short time until actual construction work begins."

Proceedings Will Be Commenced by High Street Citizens.
